

Planters from Destination Centre-Ville

This summer, DESTINATION CENTRE-VILLE donated five planters to our church. We've placed them at the portecochère doors and in the Quiet Garden where they make a colourful contribution to our landscaping.

DESTINATION CENTRE-VILLE is Montreal's not-for-profit downtown commercial development association with more than 8,000 businesses involved. Part of its mandate is to make sure that downtown Montreal is a clean, safe and dynamic area where tourists, workers and customers enjoy shopping, working and living in general.

This is also the organization that installs the beautiful lights on our ginkgo trees at Christmas time.

We are delighted to be included in DESTINATION CENTRE-VILLE's efforts to beautify the downtown area. This is also recognition, by the association, of our efforts to keep up our property, and of the role our Quiet Garden plays in downtown life.
